## Q1 NEWSLETTER 2024

### COACHES' TRAINING WEEKEND A SUCCESS

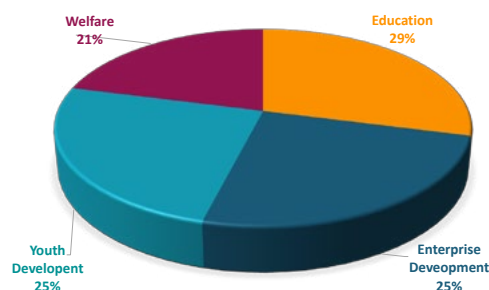

**We geared up for the launch of our Primary Schools Sports Development programme by hosting coaching clinics for 3 of the 5 sporting codes that form part of the programme, 22 to 24 March 2024.**

The weekend focused on training coaches for netball, basketball, and cricket, with educators, local volunteers, and former players in attendance.

Led by experts like Lizelle Erasmus (Netball South Africa), Craig Daniels (FIBA/Basketball South Africa accredited), Maphi Makganye, and Anton Stapelberg (Northwest Cricket), the clinics covered coaching methodologies, accountability, and practical demonstrations.

Mapule Sechogo, the secretary of Vryburg Basketball Club, expressed her enthusiasm about the recent training, noting that it has prepared her well to begin her coaching duties.

### ECD PRINCIPALS RECOGNISED.

In partnership with the Early Care Foundation, we proudly celebrated the graduation of seven ECD principals who form part of our ECD programme. Established in 2021, the aim is to equip local ECD centres with the necessary knowledge, equipment, and structural support.

The graduates received certificates acknowledging their dedication to meeting Department of Education and Department of Social Development standards while providing quality curriculum for young children.

Tshepiso Mleya from the Department of Education commended the principal's efforts and urged them to continue promoting early childhood development and uplift the children, employees, and the community.
